Where your 1031 search stands, and what happens this week

Prepared for 1031 Exchange Buyer · Monday, November 9, 2026. We screen every active for-sale listing on LoopNet across Florida against your criteria, request the books from every broker whose deal fits, verify the numbers as they come in, and bring you only what holds up.

THE CRITERIA WE SCREEN AGAINST

Price	$3,500,000 to $8,000,000 (sweet spot to $6,000,000)
Return	Stated cap rate of 8.0% or better. Anything under is out before it reaches you.
Property	Existing, cash-flowing: single-tenant net lease, retail centers, hotels, industrial / flex, office, multifamily (5+ units), medical. No land, no development, no business-only sales.
Where	All of Florida. South Florida rarely trades at 8%, so the rest of the state is where most of the fits are.

WHAT WE HAVE IDENTIFIED SO FAR

THIS WEEK, STEP BY STEP

Mon Nov 9 — **Book requests go out**
Every broker with a fitting listing gets a short email from our acquisitions desk asking for the offering memorandum, the trailing twelve months and the rent roll. We sign confidentiality agreements where a broker asks.

Mon–Wed	**Analysis as the books arrive** Each package is read the day it lands: real NOI against the stated cap, occupancy, who the tenants are and how long they are committed, expenses that make sense for the lease type. Every deal gets a verdict (clean, suspect, or still waiting on the books) and an evidence grade from A to D.
Ongoing	**Cutting the fat** Numbers that do not hold up, pro-forma stories, brokers who do not answer or do not move: out. We track how fast every broker responds; speed is a signal about the seller.
Wed Nov 11	**Review call** We walk you and your agent through the opportunities that survived: the facts, the books, our read, and the price at which each one hits 8.0% on the real income (the number we would open with).
After the call	**Offers on the ones you choose** Written offers go out at the agreed number, with the inspection period and timeline your exchange needs.

WHAT WE NEED FROM YOU TO MOVE AT FULL SPEED

Brokers release books faster to buyers who look real. Three things make that true from day one:

1. **Proof of funds** (a bank or exchange-accommodator letter covering the equity). Many brokers ask for it before they send the trailing twelve.
2. **Confidentiality agreements.** Your OK for us to sign them on the buyer's behalf, or a signer on your side who can turn them around the same day.
3. **A decision on Wednesday.** The deals that survive will have other buyers. Come to the call ready to say yes to an offer or no to the deal.

Figures as stated on LoopNet until the books are in; nothing is presented to you as verified until the trailing twelve and the rent roll support it.
